When my kids were little we had all the Wee Sing cassette tapes for in our car and also to play in the house. When I discovered that they are still for sale and on cd, I had to get them so that my granddaughter could also share in the sweet little songs like her parent did. What I always loved about Wee Sing, is that the songs are sung by kids. I would recommend ALL of the Wee Sing music. Parents need to let their kids listen to innocent kids music and not all the stuff that "they"

listen to. Too many young kids are having their innocence taken away because parents don't want to give up "their" music and movies. I love the innocence of these classic children's songs.

I like this CD for the kids as an introductory tool to bible songs. The only problem that I have is that most of the songs only play for 30-40 seconds. :(which leaves me to have to complete the song with the kids without music. Other than that it is a great CD.

This is such a wonderful collection of all the songs I learned as a child. Between this book and the Wee Sing "More" Bible songs book, I found the little songs that I didn't think I would ever find. Songs with lessons I still think of as an adult at times. It is a great collection. In addition to that these books contain simple written music. We use these books during our children's song time at my church and the pianist is now able to play along. (You could still lead these little songs without a pianist too.) These books also come with a CD so that if you are unfamiliar with a few of the songs and can't read music, you easily will be able to pick them up. These books are also illustrated and some of the action type songs have suggestions for motions to do with the children while singing the songs. They are exactly what I needed. A lot of love and care went into the design of these books. They are a great value for their price. Every church should have a set. These are a valuable tool for Sunday School teachers. They would also be great for a parent who wants to pass on the wisdom contained in these simple little songs to their children as well.

Bought this gift for grand children. Their parents loved it, and the children are truly enjoying the quality. The CD makes it a good gift for a car trip also.

This is a great product. Comes with a CD and booklet. Great song selection I play the ukulele, and was surprised to see the chords above the music. This is great to play along with guitar or ukulele or as teaching aid for either.

I have used this product for about 25 years ! (in audiocassette version) I am happy to have the CD version...great songs !

Loved this cassette as a kid. Was excited to see it on CD for my niece. She listens to it over and over.

These are more choral versions of the songs than fun singalong versions. They're lovely, just not what I was looking for.
