Jamie Meckel loves illustrating picture books for children as much as she loves the islands. She grew up and lives in Southern California and earned her BFA in illustration at CSU Long Beach. Jamie is currently working on her MFA.

I got this book for a granddaughter (along with the obligatory Maui onesie--little version of the grandparent t-shirt from a trip) who is almost 10 months and likes to sit in your lap and be read to and alternately chew the book so the fact this is a board book is perfect and one of the reasons I picked this. It is simple, has cute little faces and for whatever reason, she kisses one of the little girls in the

book whose picture appears twice. It is such a hit, I have ordered a second one from to have at our house so that when she is here she has this particular book. It will be a good story, too, as she gets older and the words and rhyming mean more. UPDATE: the 10 month old is almost three and there is a one year old behind her. They still LOVE the "noodle book" which is how we refer to it. We have a messy spaghetti picture with "...noodles in her hair, noodles on the chair (the floor etc.)...Noodles EVRYWHERE!" This is going to be one of those books that the kids look back on later in life with great fondness! The one year old giggles and loves the noodles on her nose part! This book really works. Now that we LIVE in Hawaii, I try to send "islandy" books--they now call them "Hawaii Books" and even though the Noodle Book was not originally meant as a "Hawaii book" it is for them!

We found this at the local library and our one year old loves it! In fact, she and her 3 yo sister loved it so much, we decided we needed to buy a copy. It is a must-have for anyone with a young child in Hawaii -- or any family that is "local" at heart. The illustrations are adorable and the text is great. Our daughters can really relate to the baby's insatiable craving for noodles (and I can relate to the noodles being everywhere...) A wonderful book! Perfect for keiki.

My baby didn't care much for this book at first, so it wasn't an instant winner. Over time, though, it grew on her and now it's a favorite. The illustrations are a bit different from the usual which I appreciate, and who doesn't love noodles?

My two year old grandson loves this book with the noodles in the hair. The book is fun to read and laugh about together.

Love Love Love, and we love the illustrator's work.

I can't stop gushing over how beautiful the illustrations are in this book. I also love the different types of dishes represented for baby to eat. As an adventurous ethnic food fan, it drives me nuts to see "mac and cheese" as the only acceptable noodle for babies to eat. My little ones would beg to differ. Overall, you won't be disappointed by the cute rhyming story and the....yes, I'll say it again...great, eye catching artwork.

This easily my favorite board book and a great gift for any baby or parent who loves noodles. It's also delight seeing the names of Asian noodle dishes like pancit, chap chae, or pad thai rhymed

together. Anytime someone reads this book to my son they seem to make up their own melody.

Love it!

I wanted to get my baby a book from Hawaii and this is by far our favorite book in her extensive library. It's not too long where she loses interest, the pictures keep her focused, and the words are very catchy. I've read this book to her since she was a few months old and even now as a toddler, it's her first grab. This book is also a great gift for new mommies.
