Seville & Andalusia (Eyewitness Travel Guides)

Synopsis

DK Eyewitness Travel's full-color guidebooks to hundreds of destinations around the world truly show you what others only tell you. They have become renowned for their visual excellence, which includes unparalleled photography, 3-D mapping, and specially commissioned cutaway illustrations. DK Eyewitness Travel Guides are the only guides that work equally well for inspiration, as a planning tool, a practical resource while traveling, and a keepsake following any trip. Each guide is packed with the up-to-date, reliable destination information every traveler needs, including extensive hotel and restaurant listings, themed itineraries, lush photography, and numerous maps.

Customer Reviews

I read 2 generic "Spain" travel books and one additional book on Andalusia prior to our recent trip (I was the nominated "planner.") We decided to take the Eyewitness Travel Guide because it was focused and had very good information. This book has more information on Seville than other areas of Andalusia, but even the other areas were adequately covered. We used the book primarily for Seville, but also for Granada and Cordoba. The maps and illustrations were especially helpful. As we booked hotels prior to departing, we can offer no comments about the hotels section. Similarly, not been classical "foodies" we liked to wander and look for a place when we got tired and hungry. These eating/sleeping strategies worked well for us, so the maps, info, pics and history made this book great for our purposes: deciding what we wanted to see, knowing it when we got there, history etc. One minor issue, the way opening dates/times are arranged was confusing to me. In one instance a closing time was listed incorrectly, but I'll take the blame for not checking it out

beforehand. The generic sections (types of food, transportation etc.) on travel in Spain were also helpful, although one of the other travel guides (Rick Steves) did a much better job. All-in-all, with the benefit of knowledge from other books, it was a good choice to take this one along.

As is true of DK's Eyewitness books, this book is full of fantastic pictures. It's great to wet one's appetite, but doesn't really have enough meaty information to help one prepare to visit Andalusia. It's one saving grace: great maps. I recommend this book, but not alone. This is a great companion to The Rough Guide to Andalusia.

thinking about travelling to my girl friend's former country --i need a book to help us see what we were going to do--this book is perfect, with color pictures and maps --it is wonderful--

DK travel books never fail to exceed expectations. I wish there were more. They are the quintessential guide to do-it-yourself travel but even the package tour traveler can enjoy the books.

My headline says it all. At least it is fairly current; nothing current was available from Fodors or I would have selected it.

detail info

Very useful in our 3 wk long Andalusia trip. Maps were good and provided enough description of various sights. Great.

Excellent!
