Customer Reviews

Anything Alastair Duncan publishes is a masterpiece! You can't go wrong buying one of his books.

This book is a great resource. I had checked out this book at a library and fell in love with it! I was so excited to find this on ! The price was perfect and the book arrived in perfect condition in a very quick time.

The very best books on technique leave me drooling to get to my workspace, to make things happen. In this craft, some of the tools and materials can be had in stores near where I live, so the temptation gets strong, and I've taken a class in it, This book, though, gets almost to that level and comes up short. All the pieces are right: materials, tools, howto, shop tips, all you might want. Even the ineffable "design" gets its due. But, somehow, the rank beginner (me, sort of) doesn't quite grasp the whole. I find this book intensely evocative, just not evocative in ways that evoke from me.--wiredweird
