The Little Dinosaurs Stained Glass Coloring Book (Dover Stained Glass Coloring Book)

Synopsis

Produce a dazzling display of Mesozoic monsters with this fascinating collection created for young dinosaur fans. Just the right size for little hands and printed on special translucent paper, the clearly outlined illustrations in this stained glass coloring book include the long-necked Apatosaurus (also known as Brontosaurus), a flying Rhamphorhynchus, the triple-horned Triceratops, a bony-plated Stegosaurus, and four other prehistoric reptiles. Color the fearsome fellows in natural earth tones or in bright, imaginative shades; then hang in a window or near any source of light to produce a dazzling display of creatures from the distant past.

Customer Reviews

These are super fun little coloring books but you gotta keep in mind that they are tiny!

Perfect, small book, does not have activities just coloring but still very nice. Would buy again

I didn't notice the dimensions on this when I bought it, which I know was my fault, but it was still a pretty big let down when it arrived. It is only \$1.50, though, so maybe still worth it.

This is a great, little coloring book for quick and easy fun. I bought it for my little nephews who

absolutely love dinosaurs right now. I chose to color the pages and mail them to my nephews because I live quite far away from them. I used Crayola felt tip markers and I colored on both sides of the pages. The pages turned out great!

Great little book for a great little grandson. Colored these and decorated out camper! FUN when the sun shined through.

My five year old niece loved it. Keep in mind this is a mini coloring book, if you have ever been to the toy section of the cracker barrel you would have seen examples of the book size.

Really cute tiny book.

My grandson loved it
