This is a great audition resource, as it not only has the songs already broken down into audition-ready length, but it also includes a wide variety. There are pieces from shows old and contemporary. And although some of the music goes a bit over 16 bars, this is generally not a big deal. It's maybe two-four bars over. Directors are typically more concerned with your voice than PRECISE bar count. These selections keep it close, though.

I ordered this book for an audition (obviously) based on the song choices but was disappointed to find the selections within each song. They are kind of awkward timing. They should have either not chosen the songs or found a different part in some of the songs to do. It may be because 16 measures is a short amount of time to showcase a voice. Very well known songs though.

Many theaters want a 16-bar audition song and it is often hard to find a snippet of a song to use. This book gives you lots of choices, and you are assured that you are not going to go over the 16-bar restriction.

I gave it to my daughter for her birthday and it was her favorite gift. She looks forward to using it for auditions...much simpler than trying to find and shorten regular music for auditions!

Gave this as a gift to my daughter who is majoring in musical theatre. She loves it!!!

Just as described

Great Book for Students auditioning!

Good selection of songs
