Split Shared Billing

When a hospital provides E/M services to a patient, a physician and an NP from the same group practice and the physician provides any face-to-face portion of the E/M encounter with the patient, the service may be billed under the physician or the NP. However, if there is no face-to-face encounter between the patient and the physician, the service may only be billed under the NP when possible. This guideline is not applicable to critical care, as defined by CPT, and is not allowed.

*The split is based on the amount of time spent in a consultation, as determined by the time spent in a face-to-face encounter and the time spent in a face-to-face encounter. The split is based on the amount of time spent in a face-to-face encounter and the time spent in a face-to-face encounter.

Synopsis

This handy card lets you quickly find the right pediatric Evaluation and Management (E/M) code for each level of inpatient or outpatient service. For both established and new patients, documentation guidelines are provided by way of typical times, medical decision-making, history, and examination. This 8 1/2" x 11" card is fully updated for 2017 and laminated for extra durability.
