I can play a few chords already, & until I got this book I never realized how many songs I can play. The lessons are very simple and some would say the sounds are wrong and they would technically be right. There are a lot of resources for learning songs out there, practicing the correct way to play is ideal. It's still a good book and I don't plan quitting based on criticism. Let's face it, good guitar players are typically pretentious and if they can correct you they will. I wouldn't book a show based on the songs I learned here, unless it was just friends and family.

Its a great book for beginners and has awesome tips. Would recommend it to anyone that wants to learn how to play or already knows how to play and wants to improve and learn new tricks.

Justin is the best guitar teacher ever. His books helped me to enjoy playing tight from the start.

Excellent beginners book! Will buy more from him.

Lots to learn. Good book.

This book is great - provided you're a fan of chord notation. No tabs here... The song selection is great with something for just about everyone.

Great companion to Justin's website. Good tool for learning the songs with each lesson.

The book is great for a beginner, but I'm more than that so it was kind of boring for me. Perfect for a beginner who knows basic chords, not for intermediate players.
