Justin Sandercoe has developed the best overall program to teach the guitar to beginners, intermediate, and advanced students. By far his pedagogical skills are beyond any music or guitar teacher I have ever come across. This book has the songs I grew up with and Justin does a fantastic job of transferring information to the student. Check out his web site; who else offers entire guitar courses on video for free? No one. I have purchased directly from Justin's website all the DVDs he's released and all his books; you will be amazed at how much you will learn from Justin provided you do your part.

I really like Justin's guitar songbooks and love his online videos (youtube). Thanks Justin! I would have given this 5 stars but think some of the instructions could be clearer, such as a better legend for some of the notations on his strums.

This book is really well done. Awesome songs. The songs typically aren't all tabbed out, forcing you to do the work to get it sounding exactly like the original recordings. Justin's accompanying YouTube videos are awesome as well. I have this and two other of his books and I will own them forever.

Justin's use of his books with You Tube and Spotify make practicing guitar extremely easier. The

process is very organized and the lesson# and book are always given in each You Tube video. Spotify allows for you to integrate the entire song into the learning process.

I have purchased all of Justin's books and have really learned a lot from them. Go to his web site for lessons that accompany the songs in his books. Thanks, Justin, too for all the free lessons you have on-line!

Tons of fun! I love music from the 50's, 60's, and 70's. The Vintage Songbook has tabs of songs I love. Justin does an excellent job of teaching the songs on YouTube and at his website.

Came quickly - good book

Horrible on Kindle and PC. Can not read the tab unless you have it right in front of your face.
