## Customer Reviews

My 7yr old son really enjoyed this book. Be prepared to constantly hear jokes about lava. I am ordering the hardcover book for him because I got the kindle version, and it is very hard to read. There are sections of print that are super small, and there is no way to zoom in on them like in other books we've read.

This book would be great in paperback form, but it was just too difficult to navigate in Kindle form.

Also, looking at the cover and reading the description you expect to get an actual story, but instead it is a factual book with a lot of information stuffed onto one page with some riddles and jokes thrown in. This would be fine for a paperback, but definitely not for Kindle, and definitely not what we expected.

I have read this book to my Grandson so many times he has it memorized!! It is a winner.

We used this as the foundation for a teacher appreciation event. The theme was dinosaurs and the students drew dinosaur personification of their teachers. Memories were made.

My granddaughter loves dinosaurs, and I read this book every night. There is lots of interesting facts, and great pictures.

Lots of fun facts. Best for kids that love history and dinosaurs. But better for older ages. Will revisit the jokes and poems within.

my granddaughter loves reading and she really enjoyed this, she was laughing while reading so it must be good!

Too small of print to see and read in the kindle edition
