Amazing (FBA) - Work From Home The Easy Way

Synopsis

The Best Guide to Making Money at Home With FBA Are You Ready to Live the Life of Your Dreams? Best Selling Author Frank Aaron Florence will show you how to make a living from home through Amazon's amazing FBA program. This step-by-step guide will show you how to free up your time and earn a real living through Amazon, even if you've never sold anything online before. Florence's system has almost no start-up costs, and he even shows you how to start making money right away while you de-clutter your house. Once you understand the basics, Florence shows how to go from a beginner to a master with the FBA program. You will quickly go from making a little bit of small cash to making a full time income. In this book you will learn: Why Sell Your Stuff on Amazon? All About FBA (Fulfillment By Amazon) What are the Advantages to Using FBA? What Should You Sell on Amazon? What Do You Need to Start Selling on Amazon? How Much Are Your Media Items Worth? Listing Items on Amazon Creating Your Seller Account Listing & Pricing Your Merchandise Four Specific Examples of Book Pricing Shipping Your Merchandise to Amazon Cleaning Your Inventory Packing Your Merchandise How to Create an FBA Shipment Getting to Know Your Seller Account Sign up for International Shipping Fulfillment by Amazon Settings Your Shipping Queue Managing Your Inventory Your Customer Metrics Summary Ratings and Feedback Getting Additional Help Building a Business with FBA Professional Account Extra Features Becoming a Better Bookseller Tools to Make Bookselling Easy Use FBA Across the Web If you want a magic solution that will make money fall into your lap, this book isn't for you. But, if you want to work harder and smarter, and build a business that will give you more free time and the income to live the life you want, you need to download this guide today. Florence shows you how anyone can build an online business working part time from home. He isn't just some armchair expert either. Not only is he a best selling author with multiple books about selling on Amazon, but he also successfully built his own business, while on vacation overseas. Get Your Copy Right Now! Praise for Frank Aaron Florence: "I've earned hundreds of thousands of dollars selling products on Amazon and I myself have 5 Kindle books on the subject here on Amazon. Frank Florence (author of the book you're considering) was a MAJOR influence on me when I was just getting started. He really has all this nailed down to a science, as he's studied and executed basically every profit-making tactic there is to know. HIGHLY recommended." • Jordan B. Malik, Best Selling Author of 6 Books About Selling on Amazon and eBay "Thank you so much for a book that truly will be helpful in my life. I am in the middle of leaving a job due to medical problems and have extreme stress over how to make ends meet. Your book describes the step-by-step process of selling on Amazon and being successful. I am going to share this book with many of my friends and relatives right away." • Deanna R. Miller Frank Aaron Florence is the author of six books about creating

businesses that can be run from anywhere in the world. He is a believer in working hard and smart. He currently lives in Budapest as he continues his five-year vacation funded by his online businesses.

Customer Reviews

I'm preparing my third FBA shipment to right now and know firsthand just how daunting this stuff can seem in the beginning. But Frank's book strips away most of the confusion and HUGELY simplifies things for new FBA sellers like me. I didn't understand 's online interface at first, but Frank cleared it up in simple, easy-to-follow steps that saved me hours of frustration when I began doing this a few months ago. That alone was well worth the price!The tips on preparing used inventory for sale on should be printed out and put where you can see them while you work on your shipment. I followed Frank's advice, and so far with over 100 USED items sold, I have a 100 percent positive quality rating and zero returns. You can't buy that kind of score, and Frank shows you how to achieve and maintain it.I researched FBA extensively before starting out and bought several books.

But this is the only one that I keep referring back to. It is THE primer for FBA sellers - a must-have if you're going to do well and enjoy this business.

While the information is a little outdated, it's hard to keep such info "up to the minute." changes their procedures as often as a 15 year old girl changes clothes. The author HAS updated the book recently. Yes, he does tout a couple of his services, but they are germane to selling on . The BEST PART is that the author tells you SPECIFICALLY HOW TO DO THE JOB step by step instead of just giving a general idea. To top it off, he does it all go less than a buck! I'll definitely read his other books. Glad I got this one, don't know why I didn't get to it sooner.

There is plenty of fluff at the beginning, so much I almost gave up, thank heavens for skimming. Then he gets into the meat of it, slow pedantic style (He might attribute that to thoroughness, to do extent I would not disagree). Know that if you do this venture you will almost certainly buy two of his other products. This is the reason I don't give 4 stars, I dislike Trojan horses. However if I thought I was going to do this, I, would buy the products as a matter of course. I think he guy is on the level. Bottom line, if I had the stomach for the administration side of this business I would do FBA I think it sounds like a solid business and this is a reasonable introduction.

This is an excellent informative book. The book helped me to justify why it is a good idea to become an seller. A helpful guide for persons who seek to learn further about FBA..the guide informs persons how to set up an account, how to sign up for a seller account and further how to list products on FBA. Starting a business via is easier compared to creating one yourself. Through FBA, everything is handled by and all you have to do is just follow the procedures properly like product descriptions, upc, etc. Awesome book.

Ok, but didn't really live up to its reviews... Wouldn't recommend to anyone unless you're selling books. Could be better if he broadened the scope.

Having read several e-books and physical books on FBA, this is one of the best I have.....why? because it is not dry, textbook, educational - yawn - that puts readers to sleep. This book is like a favorite brother (or sister) helping you understand something that may have seemed too hard to try, and now you "get it" and can't wait to jump in too. The book covers everything a beginning FBA seller might ask about - what is FBA? Why would anyone want to do that? How can I get started?

Where do you find inventory? Frank goes over each start up page, each form that needs to be filled out, and he offers tips and short cuts to avoid the pit falls you don't even know about yet. Yes, has fees, but where else can you sell something while on vacation, have it packed & shipped for you, before you even get off the beach? The bottom line is this: you might make a small amount on each item you sell, but as a seasoned Garage Saler, I know you make a whole lot less in your driveway, and as Frank says take that small amount and multiply it by 100 or 200 and then you'll be glad you read this book and got started!

This ebook is a terrific detailed account of one man's personal experience with 's FBA (Fullfillment By) program. FBA is 's system of taking care of the shipping and customer service for you (its much more than that, actually).The author shares so much helpful info (examples: how to set up your account, how to ship your merchandise to , fees involved, possible tax considerations, using FBA to sell your products from your own site and others and much more).This is a real nuts and bolts hands on account, not theory and conjecture. He also provides plenty of actual examples of the steps of running your business using FBA, as well as some references to software and websites that can help automate your business even more effectively and efficiently.Well worth reading whether you are new to FBA, or if you already use it and are seeking another man's experience of the process.

If you want to sell used books on through the FBA program, then I recommend this book. I didn't really want to read all about book selling (been there, done that). I was disappointed that very little time was spent on how to find and purchase new products, although I think his scam warnings are sound. I wish the author would have been a little less obvious about marketing his websites. He kind of went overboard. In all, I felt that I didn't get what I was looking for from this book, but as I said, if you want to sell books, then this book will give you a lot of useful information.
