Customer Reviews

Very well written and makes you want to clean up your house and your life.

I bought this book because we are about to move and just thinking about it was daunting. This is a very helpful guide that will hold your hand through organizing and getting rid of clutter for every room in your house. The author's warm and encouraging voice leads you through it and it feels just like having a friend by your side every step of the way. After reading this, I wouldn't say I am jumping with joy at the thought of sorting our stuff but I am definitely no longer dreading it!

Ms Classen's book is terrific if you are trying to declutter your home and your life. Her writing is clear, her suggestions are practical, and you won't regret buying her book! I have started implementing her suggestions and have found her book to be very valuable.
