The God-Science Of Black Power

Synopsis

An Elijah Muhammad Speech During The Second Day of The Nation of Islam Saviour's Day Convention in 1967. It aims chiefly at the politically shallow 60's version of Black power by introducing "Real Black Power" as it relates to how God and all life originally came out of total black space. A profound example of Elijah Muhammad's comprehensive lecture is demonstrated when he asked, "If the scripture said that in the beginning God said 'Let there be light,' then He couldn't have been in the light when he said that. He Himself had to have come from Blackness; thus ORIGINAL BLACK POWER!

Book Information

Paperback: 94 pages

Customer Reviews

Elijah Muhammad was born on October 7, 1897 in Sandersville, Georgia. He met his teacher, Master Fard Muhammad in Detroit, Michigan after migrating there in the early 1930's. Upon the departure of his teacher, Elijah Muhammad became the Leader, Teacher and Guide of what went from The Lost-Found Nation of Islam in North America to what is known today as the Nation of Islam. Notable students of the Messenger were Malcolm X Little, later named Malik El Shabazz, Cassius Clay, also named Muhammad Ali, and Louis Wilcox, later named Louis Farrakhan. Given the profundity of the writings of Elijah Muhammad, it would be an injustice to attempt to put it in a small synopsis; therefore pasting this link in your browser and visiting <http://www.memps.com>, will render the best and most accurate information available about Messenger Elijah Muhammad.

I was kind of let down by this work. I guess I expected too much going into it.

It's an interesting, and very educational background book five stars.

The shizzle of the hizzle some good knowledge is in that book u heard mayOh yes yes you don't stop

What a GREAT gift of wisdom and knowledge!!! Allah_U-Akbar!!!!

Amazing i want more

I Recommend This Book For Anyone Looking For The Truth. I Like It Because They Tell The Truth And Are Not Afraid To. Its A Good Book. Peace.

This book arrived on time. It is a quick read. The information is pretty much well known to date. Overall, it is a good read.

Great and easy to read book...
