The 10-Minute Retriever: How To Make An Obedient And Enthusiastic Gun Dog In 10 Minutes A Day

Synopsis

Daily ten-minute training sessions best suit a retriever's attention span and lead to rapid learning. The text has the information most needed by the owner of a pet retriever: how to make it reliably obedient and well-mannered. It also has the information amateur trainers are clamoring for: how to force fetch, set up tests in the field, and how to use an electric collar humanely and effectively. Primary importance is placed on developing and enhancing the desire to retrieve. The Dahl's method provides a solid foundation to the dog and owner continuing to advance retrieve training. Concepts and methods are illustrated with true dog stories.

John and Amy Dahl have over 30 years of retriever training experience between them. They have won numerous field-trials, five State Gun Dog Championships and other informal competitions, handled six dogs to their Field Championships and trained others who were owner-handled to their titles, including two Cheapeakes and two Dual Champions. They are regular and popular contributors to The Retriever Journal magazine.

Great training book so far. Some of the descriptions of training methods aren't as precise and detailed as I would like and seems to be written for those who have had more experience training retrievers before. It gives a great overview though but as a layman, and for the layman, I prefer a training program that is more intuitive. I would recommend this as a backup book and reinforcement for the book "Training Retrievers for the Marshes and Meadows" by James B. Spencer. This is how

I am using "The 10 Minute Retriever." It works as a great supplemental tool and has a few alternate methods that might be helpful if a dog were to be unresponsive to the plan presented in the former book mentioned. Good quality book over all though and I would definitely recommend this for any retriever trainer from the beginning trainer, as I am, to a more experienced trainer.

I got this for my Father-in-law. He gave his copy away after he was done training his chocolate lab. He recently got a silver lab and decided he wants this book again. He swears by it and recommends it to anybody that wants to invest some time to train a great hunting dog.

I coupled this with Water Dog by Richard Wolters. While 90% of what I did was from Water Dog, this had some nice tips and ideas to sprinkle in and add to some of the other methods. Some of the principles helped me from overdoing it with her. Highly recommended

Boyfriend really wanted this book for the Chessie pup we're getting in a few weeks, he seems to be just as pleased with it as he expected. (:

Brushing up on training for our new puppy.

This book has been a total lifesaver. It helped me to train my dog very easily. Highly recommend!

This book was recommended to me by several trainers, and I must say that this book trains me just as much as it trains my dog. It is very clear instructions and it has become my dog training bible.
