Customer Reviews

The 4th and final story about the flirty girl who is banished from society and flees to be a mail order bride to a man who lives in a soddy with his 3 children. After they leave their soddy and farm behind to go to Oregon on a wagon train, there are many trials put in their lives and a soldier from her past plays a big part. Will she leave her husband for this soldier she met on her way to be a mail order bride on a train West or will she discover she really does love her new husband and his children enough to remain his wife and their step-mother? I enjoyed the story and their journey to Oregon.

This is a series of books about Betsy, due to her actions, has to get out of town fast. She decides to become a mail order bride! Her train ride west is just the beginning of the great adventure that you will enjoy as she makes many important decisions.

The Road Home; This story was very exciting ! Some times, it really is true that you don't know what you have until you lose it. Thank you for sharing, Katie. I love your writing !

before the Epilog. ..Enjoyed the story. It was well written. Looking forward to the next stories Love Historical stories..romance, mystery especially in the 1800's.

This story, together with the other 3 in the series make 1 very excellent book. I'm sad to see the author broke it up into 4 pieces which must be read in order for the series to make any sense. There is a good amount of pathos and values in this 4-part book which gives the reader a lot to consider and which place it above the run of the mill MOB books out on the market. I would happily buy this as 1 book but not as currently marketed as 4 "books". I read this for free on Kindle Unlimited. I would have given it a 5 star rating were it not for this obvious 4 book series marketing ploy which irritated the heck out of me!

A story of people who were living in unexpected ways as they traveled across this great country to begin a new life. A lady had married a widower in order to care for his children. The man had a hard time getting comfortable with his new wife until there was an accident and then kidnapping of the wife who he went to save. A great book to read from at a special price and from a delightful author who keeps me wondering what next for the characters as they traveled along the way.

Katie Wyatt has done it again. She has written a series of connected books that will have you laughing, crying and going through all sorts of emotions both good and bad!!!! I read these books with much joy and I hope you will too!!!!

This series was a very good clean inspirational story. The characters as well as the storyline was excellent. I love this authors books. I have read a great many of them. If your looking for a good clean story I recommend this series.
