Bite This (The Kurtherian Gambit Book 4)

Synopsis

You take out one annoying vampire in revenge, and now you have to clean up the mess? What a pain in the ... something.Bethany Anne and crew are back! They need to grab a ship, figure out who is trying to dig into her businesses, get their hands around the potential for creating an A.I. and the ongoing mess with Anton and South America.One of these days, she will get a break. Fortunately for us, it wasn't today.Got an attitude? That's nice. Just don't show it around Bethany Anne. When she slaps a face off, the whole head goes with it.Bite This, The Kurtherian Gambit 04 follows the story after Love Lost. If you haven't read the preceding books YOU PRETTY MUCH HAVE TO. These are a series and many of the characters have been introduced in preceding volumes.**Please note, as mentioned in another review, there is flagrantly foul language in this novel. The main character does not have a problem with cussing, just uninspired cussing. Series includes: Death Becomes Her - The Kurtherian Gambit 01 Queen Bitch - The Kurtherian Gambit 02 Love Lost - The Kurtherian Gambit 03 Bite This - The Kurtherian Gambit 04Never Forsaken - The Kurtherian Gambit 05 (Early Jan 2016) Under My Heel - The Kurtherian Gambit 06 (Jan/Feb 2016) Kneel or Die - The Kurtherian Gambit 07 (Feb/Mar 2016)

Customer Reviews

Michael Anderle has done something fun. He's taken the vampire/were fantasy genre and merged it with kick-ass military action, not to mention a looming intergalactic alien threat. Crisp writing, several story threads, and chapters that you simply can't get enough of. The pacing is very good. There is great story development. Anderle allows you to see the story from a variety of different viewpoints. He's revealing himself to be a very deft writer. This story, as I said, is a continuation. Stephen and Ivan attempt to stabilize Europe. Bethany Anne takes out a brutal Saudi sheik, then arranges to purchase his yacht and tender as her navy base of operations. Then matters deteriorate in Costa Rica as rouge vampires attack citizens, requiring Bethany Anne and the team to assist. All the while, they are attempting to locate and isolate Anton, who appears to be the source of many of the attacks occurring in the world. I sort of suspect we are going to get to know Anton better in the next book. A great read, and fun ride. Enjoy this series.

A badass protagonist who fights for the vulnerable, now enhanced dogs are entering the story. I am so hooked. I'm going to say A word about some of the cussing, because I have read other books where it put me off. As Michael says " The main character does not have a problem with cussing, just uninspired cussing." I love God. There is no taking the Lord's name in vain in Bethany Anne's language that I've noticed. Books can be written about those who never say a swear word, but who justify their evil deeds by saying they are doing it in the name of God... that is what is meant by not taking God's name in vain, not simple profanity.....sooo, hope some of them meet Bethany Anne and her team some dark night. (And yes, I still try not to use profanity in daily speech, my daughter would castigate me)

Ran across the Rise of Magic series and was intrigued, so decided to purchase all 16 books in the Kurtherian Gambit series. I then spent the next 4 days reading all 16 of them, then moving on to the Second Dark Ages and Trials and Tribulations series. This is a very entertaining and intriguing take on Vampires and Werewolves. I am eagerly awaiting book 17. And while there were warnings about the cussing in the book I found them to be hilarious. As far as military Scifi goes, I would easily rate this up there with some of the other major authors in the genre, such as John Ringo's Possleen War or Through the Looking Glass. Looking forward to enjoying the rest of this series, and the best part

Michael Anderle seems to be a fairly prolific author so not a massive wait between books.

This entire series is like eating a bag of potato chips. You know it's not really good for you but you can't stop until you finish the whole bag. This has been a mindless romp in the world of kick ass and do it my way because i am the biggest SOB in the valley of death. Earth seems to have been central station for multiple aliens whose influence is only discovered recently. So if you want some mindless fun reads read the series in order.

This series is good as long as they are still in earth. Why? Because then it is still "believable" so this book is good and fun. Once they get into space it becomes less believable to all those who have read a lot of space opera's or books that started on earth and eventually made it into space, probably because of the more realistic real data and information. Even the info from theoretical physicists. Instead the series once in space, they just spray something on and it becomes a rocket kind of thinking is just plain silly. That's imo though.

I was once astounded after reading a chapter in book by another Author about a Sheep Herder's Daughter that I was totally absorbed by reading about the mundane. I since hold other Author's ability to hold my interest in the mundane by her. This Author passes in flying colors in his ability to describe the every events of his characters and hold this reader's attention. This story (as well as all the others) made me laugh out loud between the interaction of the characters and the authors timeless quotes from other works and Media - enjoy.

OMG - I love this series!!! Fast paced and fun with a great story line and real, down to earth characters. I absofuckinglutely love the over the top, inventive cursing. I keep waking my husband up because I'm laughing so hard while reading in bed! Growing up in the military, us kids used to collect curse words. The 1st thing we asked any new kid in the neighborhood was " what languages can you cuss in?" My brother grew up to be a linguist in the A.F. and can now cuss in 13 - 14 languages fluently. I'm still jealous.back to the review - I found the 1st book for free on Kindle on Sunday, finished it in just a couple hours (I read very fast) and immediately bought the next 10 books. It's Weds morning and I'm starting on book 8 so I came back to get the rest of the series before I get stuck somewhere with no internet connection and I'm out of books to read :) Keep up the good work Michael - this series is on my "keep to read again" list and you're my newest favorite author (& I copy/pasted this review to all the books I've read so far) thanks for the wild ride - Karen

I'm going to be lazy and cut n paste this review for the first five since they were all great. I found this gem at the back of a rather blah book I recently finished. Sounded interesting so I tried the sample. Hooked me immediately so I purchased this one. Half way through I purchased the next two. Half way through the second I purchased the rest. Less than two days later I finished all five. All I can say is, these books are a lot of fun with great characters and lots of action. Try the sample and if it interests you go for it. They only get better. Make sure you read the authors comments at the end. He is pretty straight forward about the editing etc. which is why I didn't really ping it in my review. Enjoy!
