Customer Reviews

Describes ways to grow marijuana indoors, including tips on light, temperature, water, seed selection, and growing problems.

every thing you want to know

its in good condition not perfect but good. so far its a nice book pretty much a smaller version of the bigger grow handbook. I like it

What else needs to be said other than a book by the man himself, the guru of ganja, the professor of pot., Ed Rosenthal. Great book. A must have for your library!

best read in a wile , i'll try more hook me UP!!!

Very handy book. I pull it up for everything when growing my plants. I like the pictures and the step back step explanation on everything growing!

Every Ganja grower needs this info packed book on his or her self, I love mine. It has some wonderful photos of some Delicious looking dank buds, sexing, problems and not to mention the famous "Ask Ed" best of questions from High Times. Highly recommended book "two enthusiastic thumbs up, great holiday fun"!

good book

Helpful, but dated.
