Customer Reviews

The Canadian Rockies west of Calgary, Alberta Province, contain some of the most spectacular scenery and outstanding outdoor recreational opportunities in North America. Much of the area has been preserved in a network of Canadian National and Alberta/British Columbia Provincial Parks. Gem Trek Publishers of Cochrane, Alberta, provide a series of maps at multiple scales that are close to one stop shopping for travelers in the area. The "Bow Lake and Saskatchewan Crossing" Map comes in a 1:70,000 scale and covers a large area along the Icefields Parkway in the northern portion of Banff National Park. The Parkway winds through 8k-10k peaks in a stunning setting. Among the highlights are the beautiful Bow and Peyto Lakes, the Crowfoot Glacier, and Saskatchewan Crossing itself. A hiking highlight is the Helen Lake Trail, which takes the hiker around a long spur opposite Bow Lake, into a high cirque with an alpine lake. From above the lake, there are spectacular views of the Bow River valley and Dolomite Peak. This mapsheet is unusual for this series in that only one side is used, for a large scale, multicolored, detailed terrain presentation. No trail descriptions or other narrative are provided; wise travelers will consult one of several adequate guides for additional information. Nevertheless, this map is highly recommended for travelers on the Icefields Parkway.
