Customer Reviews

Excellent! It covers complete basic guideline and tips for specific condition that required to take care the bonsai. Best to read it twice for someone new to the whole bonsai concept so that every detail covered are followed well. Really worth recommending!

My husband presented me this book for my birthday. The last summer I was in Japan and visited an exhibition of beautiful bonsai trees. Now, bonsai is my passion. Hitomi Nakamura managed to

explain all nuances, that are very important for the beginners. Excellent guide! Do not hesitate, get it.

Article starts out on a high note but it appears the author gets tired of writing toward the end as much of the information seems glossed over or impatient. I would look online or in a different "book" entirely for information when considering starting a Bonsai journey. Good luck.

The following user says thank you for your help with this subject, a very helpful book on the art of Bosai

Very helpful as I am trying to start Bonsai trees for the first time.

Wow! I have just finished reading this Bonsai Master Guide. This book taught me how to grow a bonsai tree. The author explains about bonsai wiring, bonsai pruning, types of bonsai trees, how to take care of the roots. Definitely, I will grow my personal bonsai tree. Cool travel guide!

great information

A really good introductory book for Bonsai art. I really enjoyed the reading and now I'm ready for a more advanced info, and to start my first bonsai tree.
