Really enjoying this series, it's very different than your normal zombie genre. The plot takes place far into the future on the outskirts of a forest far from the "ancient" city and "river" that never ends (ocean). A small group of people manage to survive a plague and start a new civilization outside of these woods. Where it went wrong socially and morally would make for an interesting book. These survivors reproduced and several hundred years later thousands of people live in a type of dreary pre-victorian type townships. Only scholars are allowed to read, ministers burn people alive for minor offences and a terrifying General rules everything behind the scenes. The authors do an

excellent job in keeping with the story lines and character development. Keep in mind these characters have zero tech and zero comforts. Women are kept around for menial tasks and child bearing. I found myself fully enveloped in the story. At one point I found myself sympathising with a character because of some simple situation that could be resolved within a minute in this day and age but because of having not much more than the clothes on his back or the ability for critical thinking he is absolutely stuck in his predicament. I stopped reading at this point and thought to myself I have been completely pulled in by fantastic story telling/writing. This duo team of writers are doing an amazing job...even keeping with the way characters speak...never deviating. It's so interesting how the writers perceive our future and that it's regressed 400 years in the past. This is a good series. Very interesting. Do yourself a favor and buy this series.

This is Book 3 of a series and each book gets better. I highly recommend you read books 1 and 2 first, although there is a brief synopsis of both previous books at the beginning of this one. The story is set in 300 years post-apocalyptic Earth, complete with virus-laden people who have turned into what are considered demons. Our history, technology, and social norms are completely lost to these survivors. The characters are gritty and often unlikable, but that is what creates the setting for the emotional and sometimes physical battles that play out in these stories. There is no single protagonist; rather, there are a handful of individuals whose lives are inexplicably intertwined with each other, although the reasons have not yet necessarily come to light. I find myself rooting for the underdogs, cheering when the evil characters get their comeuppance, and eagerly awaiting the next book in this series. T.W. Piperbrook and Bobby Adair make an excellent writing team.

Ok, I'm hooked, plus I don't want Stephen King to get all the five star reviews & after all you need to get your prosthetic feet & cabbage patch doll. FYI readers, you'll need to read this books after ending short story to figure out what the heck I'm talking about. Oh, and for the record, T.J. & Bobby, King hasn't written even a 1 star book since like the 80's. (Now Koontz is a different story imo). Anyways, keep em coming & I'll keep a reading.....don't wait too long as I'm old and I'd like to see this series end before I do.

This review is actually for the series thus far. As an avid reader in this genre it is extremely rare for me to come across a series that is so unique so creative that I truly have not been able to guess what's next. Each time I think I understand a character or have figured out a particular plot line the story twists in a way that is not only completely unexpected but so much more intriguing that what I

anticipated. Each character has such a depth to them they mimic real people versus two dimensional predictable characters. The evolution of each character shows their complexity and how no two people come through situations in the same way. One minute you are rooting for a character and the next minute you despise them. Others are so cruel you can't wait until the authors end their reign and instead you get to know them on a more intimate level and your feelings over your desire for their fate is twisted in a way that surprises you as a reader. I know I said this once but it's worth mentioning again...I have read hundreds if not thousands of books in this genre and similar ones. Almost always I am either able to predict much of the entire story or at least most of it. I mean hey they really are all the same idea right? Wrong! In this series I have stopped trying to guess as my self esteem as an intellectual reader is slowly withering away. I have finally realized for once I have found a story where I can simply enjoy the ride!! I would STRONGLY recommend this book to anyone but especially those who think there is yet a story they haven't heard and believe there is no way they could ever be surprised. Thank you for restoring my faith in an authors ability to write something new!!

How these guys keep the tension and suspense up, book after book, IÃ¢Â™ll never know. But they do, and I love it! The Last Humanity picks up where The Last Escape leaves off, we find a new set of troubles added to those already being endured, along with meeting new characters to love, hate, or both. While listening to this, I found myself worrying for Ã¢ÂœemyÃ¢Â• characters, and hoping and praying they would be okay. CanÃ¢Â™t wait to get my hands and ears on the next in the series!As for the narrator, I wonÃ¢Â™t bore you. IÃ¢Â™ve stated in the other reviews that I thoroughly enjoy his tale telling, and that hasnÃ¢Â™t changed.Bob says: 4.5 Platypires!

Oh my word. What a wonderfully written account. I'm not sure who I'm supposed to love or hate and that's what I love and hate about this story. The authors beautifully weave these well written characters into your brain in that one gets to thinking what they may be up to when one is supposed to be working, getting the kids ready for bed, or cleaning. I look forward to my lunch breaks so I can escape in their world, if only for a little bit at a time. And here I go, it's bedtime, and I'm starting the next book - oh well, I know it will be worth it. Now go buy that vintage cabbage patch kid and prosthetic feet.
