Long Way Down: An Epic Journey By Motorcycle From Scotland To South Africa

Synopsis

Now in paperback, this second remarkable travel book from famed actor Ewan McGregor and his good friend Charley Boorman chronicles their epic adventure ride on motorbikes from Scotland to South Africa. After their fantastic trip around the world in 2004, recounted to acclaim in *Long Way Round*, Ewan McGregor and Charley Boorman couldn't shake the travel bug. Inspired by their UNICEF visits to Africa, they knew they had to go back and experience this extraordinary continent in more depth. In *Long Way Down*, they share their 15,000-mile journey, from the northernmost tip of Scotland to the southernmost tip of South Africa, to ride some of the toughest terrain in the world. Along the way, from the pyramids in Egypt to Luke Skywalker's house in Tunisia, they meet people who have triumphed over terrifying experiences—former child soldiers in Uganda and children living amidst the minefields of Ethiopia. They have a close encounter with a family of gorillas in Rwanda and are nearly trampled by a herd of elephants in Botswana. Riding through spectacular scenery, often in extreme temperatures, they face their hardest challenges yet. With their trademark humor and honesty, they tell their story—the drama, the dangers, and the sheer exhilaration of riding together again through a continent filled with magic and wonder.

Customer Reviews

A great book * BELLA * --This text refers to an out of print or unavailable edition of this title.

Ewan McGregor is one of the most acclaimed and successful actors of his generation. The star of *Star Wars* and *Moulin Rouge*, he lives in London, England. Charley Boorman, son of famed director

John Boorman, is an actor living in London.

I've enjoyed both of the "Long Way" books. They're an enjoyable read even if they aren't great literature or exceptional travel writing. Ewan and Charley seem like two great guys and their humanity and down-to-earth natures really show in these stories. Some of the reviews here have been negative, with many of them criticizing the trip's supposed lack of purity in that Ewan and Charley had a support team and a few sponsors. Whatever. If you ask me, the support team was pretty thin, and it's clear that many times they were just winging it and improvising as they went along. This was emphatically not a Camel Trophy-type extravaganza, with flocks of accompanying helicopters, spare vehicles, and squads of mechanics standing by with truckloads of spare parts, and it certainly didn't appear to be a luxury trip by any stretch. Call it a compromise between a full-on expedition (complete with porters and truckloads of "essential equipment") and a threadbare by-the-seat-of-our-pants penniless slog taking many months or even years. Sure, in a perfect world you'd take two years to undergo such a journey, and thus provide yourself with plenty of time to see everything and get to know the people and cultures in great detail. But let's face it, 99.99 percent of us will never be able to pull that off, either due to: 1) family/career obligations; 2) a lack of time; 3) a lack of money; 4) a lack of balls; or 5) all of the above. That's just the way it is. But these guys went out and did it, however imperfectly. That's just fine in my book. Jolly good, blokes!

So interesting to get a behind the scenes look at what was going on during the documentary on Long Way Down. Loved the DVDs, and the books complete the experience!

Not the greatest of literature but it contained a few behind the scenes pages that added to the videos. If you enjoyed the video series, you should enjoy the book.

This is an epic adventure. The vast support network they have in place is wonderful. I enjoy the love and support they give and receive.

In Long Way Round, Charlie and Ewan set the stage for two best friends and their motorcycle journeys across the globe. You get to know the cast and crew in a personal way and see the journey through the eyes of avid adventure motorcyclists. In Long Way Down, they've ditched the whiney trip doctor from the first trip and replaced him with a doctor who better fits the spirit of the team. This film feels more personal to the viewer. Charlie and Ewan are more emotional this time

around and the scenery and imagery is amazing. The stories of the journey are heartfelt and you really get a different perspective of how people live with each other and their environment throughout several different countries in Africa. The language is colorful at times for a younger audience (Charlie uses the F word extensively) but the story and journey are worth it. If you are not a motorcyclist, you will probably still enjoy the movie. If you are a motorcyclist, you'll be planning your next trip!

Due to scheduling complications with the ferry for the first 1/3rd of the trip, Long Way Down (LWD) had a rushed and more stressful feel to it in comparison to Long Way Round. This led to a slightly less enjoyable experience for the reader/viewer in my opinion. Nevertheless, this voyage is still Ewan and Charley at their best. These guys enjoy motorcycling and traveling on them so much that they make the best out of any situation. The way they document the trip is so honest, and really opens you up to their personalities - something you rarely get to see with famous people. It's so honest and humble, yet funny and appropriately opinionated at the same time. The quality of the book - the editing, the photos and the writing are superb in their natural style. The fact that they take time to do charity work as well as show the world things that most choose to ignore is wonderful. Plus, like the LWR trip - it's an incredible way to show the beauty of our world and politeness of so many of the people in it. The books and movies are true magic on film - whether or not you like motorcycles or not (i am obsessed), it is nearly impossible to not fall in love with these two guys and their journey of a lifetime.

very enjoyable, exactly as described

Wife and I enjoyed the series. I am a motorcycle touring rider. I enjoyed the segments on preparation, logistics, the story, and the sideline stories of this event. It inspired my wife and I to begin donating to UNICEF again after seeing, how UNICEF was providing its service around the world. I was impressed by the BMW bikes the guys were riding the punishment the bikes take during this journey, the candidness about the mistakes they made preparing and executing the journey. Over all an excellent account of the event, I even bought the book after watching as well as The Long Way Round video.
