Book by Ginott, Shai

Great Book, I Absolutely Love it, great photos.

It's a very large book with some lovely photos in it. I can't give it a completely fair review because I just haven't a chance to sit down, really look at the photos, and read the text. I bought it after we had just returned from Israel, and it shows a lot of areas we weren't able to visit.

Spectacular Israel is an awesome book with some of the best photos we've seen of Israel anywhere - and we're photographers! It brought back wonderful memories of my trip there in 1973. Through 200 spectacular photos and interesting texts this coffee table book presents the beauty, history and variety of the land from snow-topped Mt. Hermon to the fortress of Masada, ancient Jerusalem, modern Tel Aviv/Jaffa and much, much more. A must before you visit Israel, a reminder afterward and a perfect gift for anyone who wants to feel as if they've been there.

I found this book truly lives up to its name. The pictures are amazingly beautiful and the book is quite informative. I purchased this book as a gift and felt it was certainly a gift I could give with no

regrets.

I was looking for a picture book containing snapshots from all different parts of Israel. This book, shot by many Israeli photographers, captures the essence of the country by its photographs. In addition, it contains about 20 or so pages with informative history alongside the pictures. There are a variety of types of shots: numerous fold out pages, bird's eye views, and up-close pictures. I found Spectacular Israel to be a GREAT buy for the extensive collection of pictures. It is definately the best book out there for anyone looking to own a picture book on Israel.

This work presents outstanding, even spectacular views of the Land of Israel. It is remarkable how varied in its climate and geography such a small land is, and how great in beauty, also.

This is by far the best photo book of Israel I have seen. It is worth every penny (or Shekel)!

I dropped in at a Borders book store, spotted the series of Beaux Arts Editions, picked up the volume "Spectacular Israel" and sampled a couple of pages - without exception, breathtaking pictures. But then I looked at a map of Israel that stretched from the Mediterranean Sea to Jordan... no trace of the Occupied Territories. Someone who viewed the book before me must also have become aware of the terrible ommission and crudely sketched in the borders of the Gaza Strip and the West Bankand. I was outraged over this land grab (I know plenty of Jews support it) and reported my finding to the store manager (Borders). No matter how beautiful the book but when it so bluntly disregards international borders it has immediately lost its attraction, al least to me. There ARE priorities in my choices...
