Preparing For Trial - 60 Days And Counting

Synopsis

The essential process of preparation in the final months before trial is the sameâkeeping in mind that every case is unique, every court has different rules, and every judge has personal preferences. In recent years, detailed trial rules have proliferated in our jurisdictions, just as the tolerance of courts and judges of ignorance (or knowing non-compliance) with those rules has lessened. These facts along with client expectations, means there is little room for "learning by doing" in preparing a case for trial. Preparing for Trial demonstrates how to systematize your approach to the final weeks before trial, to assure there are no loose ends in your case, and to limit the stress of a very demanding time. It is an invaluable guide for trial lawyers needing to focus, prioritize and prepare for trial.
