Customer Reviews

"While there are Catholic religion courses that include activities and helpful resources, this is the first such resource Iâ™ve seen that was designed for Catholic families with children of a wide age span that focuses primarily on the story of the Bible. Catholic families, whether homeschooling or not, should findÂ The Story of the BibleÂ a very appealing resource." -Cathy Duffy,Â Cathy Duffy

My kids love listening to this and even request it in the car. It is entertaining and informative. The narrator has a pleasant voice. Our family highly recommends it. It is well worth the price to have our kids learning the Bible on the go. We look forward to purchasing the New Testament version as well.

Absolutely wonderful!! like to follow along with my Bible. There are whole chapters skipped, but hasn't detracted from it's quality.

Good for children & adult to read

This is the best audio version of Bible stories we have ever heard. Our whole family- kids and adults- enjoy listening to it. I'm looking forward to ordering the New Testament next.

We bought "The Story of the Bible" Audio Drama, both Volumes I and II for family road trips. This is not just a straight reading of the Bible like other audio Bibles that we have, but the narrator explains events and people chronologically in an interesting way, with plenty of sound effects, factual history, and human interest side lights. We found it true to the Bible, and were refreshed by this presentation; it added new depth and variety. This audio set will increase Bible comprehension on both literal and emotional levels. It is family-friendly; we play this set on family trips and everyone, age 6 and up, listens. Kevin Gallagher really makes the Bible come alive. In a time when our children receive more visual stimulation than ever, it is refreshing to use this audio format to train our children's brains to receive oral information equally well.

We purchased this CD set along with Vol. II - The New Testament and The Story of Civilization. They stand out on their own, even though Tan does offer a whole curriculum to accompany these CDs. Our children, 3, 9, and 11, love it. The stories are not watered down. We love the music and the narration. I also like how the stories are put into context with the secular events of that time. These are nothing like the hokey "kids" versions of Bible stories. The sound effects, music, and dramatic narration come together to really cement the stories in their memories. We eagerly await

the forthcoming volumes of Story of Civilization!

We bought the Audible version and are using it for homeschooling our children. It is a fantastic resource, thorough and interesting for all ages! Can't recommend it enough!

The whole family loved listening to this and the kids got so much out of it.
