My wife is a recovering stroke victim, and the recovery is proceeding well. I chose this book for her to color as part of her therapy, because she has derived immense pleasure, for many years, delicately arranging beautiful flower displays for our home and church. The floral arrangements in this book include both vases and flower selections, requiring a beautiful mind to deftly match and place flower colors to their most beautiful advantage. This has become one of my wife's favorite coloring books, and I appreciate the effort Ms. Tarbox made in designing these floral patterns, for my wife's pleasure and therapy. I would highly recommend this book for anyone with the floral artist's touch, to help enhance their world of beauty and imagination.

I love this coloring book. I'm very picky about my coloring books because I like really nice pictures to color so if I want to frame them later, they are good pictures and I find that there is a big difference out there in the quality of pictures in coloring books. I also love the one sided, perforated coloring books because it's much easier for me to color when the page is not in the book. This book has very tasteful, nice drawings and I really like it.

Pictures not to small for my 92 year old Mother to enjoy coloring. Other adult coloring books had too many small spaces and intricate patterns which frustrated her. It has really been a blessing in helping her pass the time with something she enjoys. Excellent for her hand - eye coordination. The pages are perforated so I was able to make copies of her favorites for future coloring

I really love every page in this book. I use pencils, paint, fine line ink, and gel pens to give me different looks. The pages are nice heavy paper but the inks do come through, so put a piece of paper between them.

Most beautiful flowers, I have ever colored! Love this coloring book. I did buy another one. Ms. Charlene Tarbox is a fantastic artist of flowers. I gave it 5 stars, cause it's a great book to get lost in. If you love Real flowers, you will love this book! Would buy as a gift!

Love this book the pages in this book are a nice change from very small detailed items you see in other books so my old eyes are grateful for the break. Because of the nice bigger size, not teenie tiny flowers and leaves, you really can do a lot of blending with beautiful colors. You can even get a

mat and frame a few together to display your own art work in colors that match your decor.

Wonderful!! I've always wanted to draw but image lost between mind and fingers, BUT these books finally let me "create". When I need something "mindless" I turn off all social media and color or paint. (Great color pencils and water color paints on ) My brain is calm, my snack eating and blood pressure down. What more can you ask.

Wonderful pictures to color. I am very pleased with the quality of the paper, the pictures and the way the book lies while I color.
