## Customer Reviews

large comprehensive book for the new small boat owner. 52-53 edition.

I had this book when I was a teen and it was My bible. I just wanted it for old time sake. The photos show how boating was back in the 50's before all the fancy stuff like GPS. It has some great photos in it.

There was a little transportation snag, but the seller took good care of it when I notified him, and everything else worked out just fine.

As advertised
