Living In Style Ibiza

Synopsis

Ibiza is an island of contrasts. It is both a haven for hippies as well as for the international rich and famous, a destination for dropouts as well as for party-goers. They all love the island's charms, its beautiful beaches, and scenery, where they can savor the salty air as it drifts up from the salt fields and enjoy parties with the most renowned DJs in the world. Exciting and stimulating contrasts also define the island's architecture. From centuries-old fincas in the typical Spanish style to uniquely modern houses-- the islanders maintain an exclusive and cosmopolitan style of living. Whether futuristic or classically elegant, all the interiors are unique and exude a warm, inviting charm. Living in Style Ibiza showcases the best of these interiors, where stylish design and exceptional materials form an exciting blend.

Book Information

Customer Reviews

This book was great for our purpose: building and furnishing crash pads in Ibiza. We've been visiting the island since we were wee ones, back when it was exclusive to the jolly nobs and the mystics, right up there with Formentera. Then came the good times, party party party - f---ing and fighting, then sleeping it off. We've gotten a bit old for that, but, Britain being what it is since Thatcher, and America what it is since Reagan, we've been able to accumulate some cash and this is one of the places we like to stash it. Along with some other activities, of course. But we're not quite up passing out on the beach anymore, and it's harder to impress the types we're now interested in, not like it was with those San Francisco stoners, back in the day. You know, once your person becomes less

presentable, you have to build a nest and feather it.

A fascinating book which contains two of the properties my wife and I rented ten years ago when we first decided to operate a photography business on the Spanish Mediterranean island of Ibiza. A super book, it contains some superb pictures of present neighbours properties.
