Infamous: A Fame Game Novel, Book 3

Synopsis

Fame comes at a price. Filming for season two of The Fame Game has begun, and star Madison Parker is doing something she never thought she'd do: avoiding the PopTV cameras. She knows Trevor will come groveling and that she'll go back to the show eventually - but on her terms. Fame can turn a girl into a pawn, and Madison knows that's not the life she wants. Fame can turn a girl into a target, too, something her Fame Game costars are quickly learning. Up-and-coming actress Carmen is trying to figure out who's feeding gossip about her to the press, and all signs point to someone from her inner circle. Meanwhile, the tabloids have dubbed Kate "The Boring One" but if she's so boring, why is she the one with the boyfriend and a stalker? Help comes from an unexpected place as Madison gives Kate pointers about how to work the reality-TV system. But will Kate take the advice too far? As the girls' careers heat up, so do their love lives, and they each discover that chasing their dreams almost always comes at a price. In the exciting conclusion to her Fame Game series, best-selling author and fashion designer Lauren Conrad pulls back the curtain on Hollywood to reveal that being glamorous isn't always pretty.

Customer Reviews

Lauren Conrad is a good author, it's kinda interesting to read about all the things that can go on behind the scenes of reality tv. And I think people like to try to figure out which incidences in the book may have happened in real life as Lauren was filming the series and which are made up. And also who each character in the book resembles which cast member from the tv series. For some

reason with this particular book, I have been reading it on and off since I ordered it the night it was released. Ususally I will pretty much read a book start to finish. These books are a good series tho, and I'd recomend buying them. I also like to see how the characters evolve thru the series. Madalyn reminds me of Heidi, only it seems Madalyn may actually have a heart and change for the better. Go ahead and order the book, see what you think!

Lauren Conrad did it again! I have always been a fan of hers since Laguna Beach & I'm happy she's branching out into writing. I may be a bit biased, but Lauren can do no wrong. I love how each series tied well into one another & each left a place in end for more to come. If LC is writing more books, I can't wait for them to come!!

The characters and their back stories were great. It felt real.I liked how it was set up so you could understand the inner workings of reality TV. I would definitely refer this series.

Entertaining and super easy to read... great for summer reading... and the other two books that come before this one also...

I wanted to give it 5 stars but i felt like the book just ended with much left unanswered which surprised me given thats now the other books ended but im a huge Lauren Conrad fan through and through so i give it props. Quick read since you cant put it down once you start.

loved it --hope she continues the saga

Lauren Conrad is so creative! Love her books!

Lauren is an okay author but the books are exciting. Maybe for a teenager.
