The Witch Hunter's Handbook: The Doctrines And Methodology Of The Templars Of Sigmar (Warhammer S.)

Synopsis

This is a full-blooded and characterful background book about the dreaded witch hunters who inhabit Warhammer's dark and gothic fantasy universe, the Old World. The book reveals many secrets of the Templars of Sigmar and their bloodthirsty techniques, describing in eye-watering detail how they root out evil and crush heresy. Accompanying the text is wonderful design and fantastically gruesome illustrations. This is certainly the grimmest book about the Old World so far!

Customer Reviews

"After a music career so disastrous it landed him in court, Darius Hinks decided a career in publishing might be safer. He secured himself a position working in the Black Library and over the last five years he has worked on books such as *Inquis Exterminatus* and *Liber Chaotica*, as well as writing Warhammer and Warhammer 40,000 fiction for *Inferno!* magazine and generally trying to avoid any more litigation."

Excellent handbook for Witchhunters

Despite the small size, this is an essential handbook into the thinking of a Witch Hunter for the warhammer roleplayer. It cleverly covers witch hunting tests and trials that ensuring that zealous witch hunting will never be far from paranoia. While not covering any particular warhammer rules this handbook will allow first and second edition witch hunters to carry on in their often over zealous hunt for Witches, Warlocks, Demons, Undead and anyone who may doubt the witch hunter's

authority.

Mildly entertaining- journal style reading that won't change your gameplay. Might influence a gamemaster to throw one in a campaign as an NPC but nothing in here will be used as a resource during a game.

My only problem with this book was that it's bound in leather and I didn't know that before it turned up. I sent it back because of this - that is my only complaint (well that and that I can't now read a copy). It's a nice little background book - ideal for adding flavour to your campaign or character. A nice little bit of icing on your setting, it's not going to change anything but it'll give you a greater understanding of the Empire. More useful for Warhammer Fantasy Roleplay than anything else. My stars rating is based on the contents, rather than my complaint.

If you like the oldschool witch hunters on the Warhammer universe this book is for you it's like an actual ref guide on weapons short stories facts on how to spot and find different signs of chaos taint etc hope they continue this series
