Philosophy Book 1: Student Book

Synopsis

Eighty lesson plans (40 per volume) with reproducible handouts encourage students not merely to study philosophy, but to be philosophers. Units in volume one cover introduction to philosophy, metaphysics, epistemology, political philosophy, and ethics. Volume two units address existentialism, logic, philosophy of science, and Eastern philosophy. Emphasizing active learning and critical thought, student handouts suggest thought experiments or ask incisive questions about passages from the great philosophers. (Optional student workbooks provide the handouts only in a bound format.) Grades 9-12. Bibliographies. Pronunciation guides. (CFL121)

Book Information

Spiral-bound: 267 pages

Customer Reviews

Great condition, no writings but the cover was a little worn out with some stickers on the back. Just like how it was advertised. Thanks for your honesty.
