These are great books for children learning to read and for children who don't like to read "long:

books. Also these books have a ton of information in them that keep my children interested on reading to the next page. I find that my children will read these books over and over again.

Great graphics! My 7 year old had no problem with reading it..

My 6 year old loved this book. You don't realize how much choppers are used and for what purposes. I even learned a few things!

kept my 8 year old entertained. worth the price

My son enjoyed this book and it was just right for his level. A little difficult, but not too hard that he couldn't get through it, and was able to learn from it.

My kid loves it

Gives the reader insight of how helicopters are useful. From search and rescue to extinguishing forest fires, not to mention their military function.

Three year old loves it, but he is obsessed!
